

May 23, 2021

I urge you to reject the proposed Changes in Service outlined in N-2021-1, which would dramatically slow, and even alleviate, mail delivery. It is a disservice to millions of US citizens like me who rely on a modern, speedy and affordable mail service for bill paying, correspondence and contact with our friends and loved ones. Please reject the draconian changes outlined in the proposal and restore the integrity of the US Postal Service, Thank you. Marilyn Sullivan
